End Date

10.08.2026

Reference Code

ICT/P/7/26.

Company

Kenya Revenue Authority (KRA) Staff Pension Scheme

Department

Pension Scheme

Job Summary

The jobholder will be responsible for managing, supporting, and maintaining the Scheme's ICT systems, networks, and technology infrastructure to ensure secure, efficient, and reliable operations, while providing user support and technical assistance to staff and stakeholders.

Roles and Responsibilities

- Provide day-to-day ICT support to staff, including troubleshooting hardware, software, network, and system issues.
- Set up, configure, and maintain computers, user accounts, printers, and other ICT equipment.
- Monitor and maintain the Scheme's ICT systems, networks, databases, and website to ensure reliability and security.
- Support implementation of information security, data protection, backup, and disaster recovery procedures.
- Conduct routine system maintenance, updates, and repairs in liaison with service providers where necessary.

- Provide support in management of the Scheme's website and social media platforms, including content updates and basic digital support services.
- Assist in generating ICT reports and tracking system performance and user support requests.
- Support user access management and ensure compliance with approved ICT security procedures.
- Maintain proper ICT documentation, inventory records, and asset registers.
- Liaise with vendors and service providers on ICT support, maintenance, and system improvements.
- Support business continuity and operational efficiency through effective ICT service delivery.

Minimum Requirements
